The future of ultra-secure ePassport personalization

Overview:

The eP600 Plus is a modular ePassport personalization solution combining two innovative printing technologies that provide an integrated and fully-automated process. The solution offers a broad range of personalization options that protect ePassports against counterfeit and forgery.

Features:

■ An integrated personalization process incorporating reverse retransfer and inkjet printing

■ Personalizing data page using reverse retransfer of solid pigment ink

■ Personalization an additional page using inkjet printing technology

■ Multi-layer security including overt, covert and forensic features

■ A robust modular design that can be tailored according to the authorities' requirements

ABOUT GET GROUP

For more than 30 years, GET Group has established a global reputation as a leading provider of security printing, physical security, business solutions, intelligent transportation systems and commercial card printing. Using state-of-the-art security systems, innovative hardware, and software applications, GET Group provides institutions, enterprises and more than 25 governments worldwide, with highly secure and durable travel and identification documents, integrated physical security systems, and mission-critical e-Process solutions.

Having been awarded the prestigious CMMI Level 5 international quality certification, the ISO 9001 standard for quality management, and the ISO 27001 standard for information security, GET Group provides its clients from the public and private sectors with a suite of customizable, integrated and reliable solutions, such as passport and ID personalization, Community ID, Premises Security, Intelligent Key and Asset Management, Long-Range Surveillance, Integrated Management Platform, Electronic Bill Presentment and Payment, Prepaid Applications, Medical Claims Management, Customs Management, Queue Management, Vehicle and Road Monitoring, Electronic Toll Collection, Automatic Vehicle Identification and Highway Traffic Management. In addition, GET Group's line of commercial card printers 'Heidi' continues to empower many industries and sectors with unique printing capabilities and various personalization options at a low cost-per-card.

GET Group's pioneering solutions, technological expertise, and wide integration capabilities help public sector organizations and private enterprises manage and optimize their processes and performance, thus providing them with a competitive advantage, synergies across their processes, and higher returns on operational investment.
